

Dear Friends,

Prophesy is given to give space for change - lets change the National conversation! It is time for us to bless our leaders with a new conversation about healing-killing still more than the 200,000,000 ++ people murdered in war on our planet in this century alone will not end terrorism - IT WILL SIMPLY CREATE MORE MARTYRS AND GREATER COMMITMENT ON THEIR PART. LIKE A HURTING CHILD THEY ARE COMMUNICATING SOMETHING.

WHEN THE PEOPLE LEAD-THE LEADERS WILL FOLLOW! WE CAN DO THIS!!!

Twenty years ago, I did a tape called "Pyramid Prophecy." In it, I reviewed the structure of the Pyramid and recounted what seemed to be an interesting piece of data. The passageway to the Kings Chamber has markings that, if divided by a measurement called the "Pyramidal Inch," reflects virtually every important date in the last several thousand years. At the end of the passageway, there is a choice to make-one must step up to approach the "Kings Chamber," or go down into what has been called the "Pit of Darkness."

The final date indicated in the passageway, according to the marking system mentioned above is September 17, 2001!

Over the years many have asked me what that means. I don't know, but suspect that this is a time of choice-either we will slide down into the pit or make a quantum leap into a new world-but the leap has to get into the speech of our country and our leaders quickly-we may have as few as 6 days left in which to break free of the old belief of "an eye for an eye!" Mahatma Ghandi said it best, I think when he said that "An eye for as eye, a tooth for a tooth leaves the whole world blind and toothless."

The fearful mind sees a threatening world, the hostile mind an irritating world and cannot put itself in the picture as having anything to do with the cause of its experience nor its perception. In the Mideast brother has been killing brother for centuries-each attack as justified as the last one. As we can justify "retaliation" for "terrorism," they will see our "retaliation" as State sponsored "terrorism," and feel justified in retaliation. In the words of an old song, "When will we ever learn?" Can we kill enough people to rid the world of killers? Do we think we will be the only killers left? EVER?

Strength in not power-it as a substitute for power and can only produce more suffering-it is time for true power to show up and change the rules.

This is a call to flood Congress, local, State and Federal Government, media, radio talk shows, our friends and neighbors with the message of restraint and change the rules of a game that is centuries old in the Mid-East-it is time for Forgiveness to begin and healing to occur. Somebody has to get big enough to model it.

I join you in prayers of healing,

michael ryce
