

# Hold the Space and Send Loving Energy

This next week, Sunday, March 2nd through Sunday, March 9th, 2025. We have several participants in the Quantum Still Point personal intensive. Below is the Healing Vision for them (and you).

## QUANTUM STILLPOINT HEALING VISION

*“Who looks without — in the mind - sight/perception — dreams, who looks within awakens!”* Carl Jung

**THE STARTING POINT FOR ACTUAL HEALING IS TRUTH.**

**“In all my research, I have never come across matter. To me, the term matter implies a bundle of energy which is given form by an intelligent spirit... THERE IS NO MATTER AS SUCH! All matter originates and exists only by virtue of a force... behind this force is ... a conscious (or unconscious-mjr) and intelligent mind. This mind is the matrix of all matter!”**  
— Max Planck who won the Nobel Prize in physics for the discovery of the Quantum level of Creation.

**Quantum StillPoint** is a Sacred Inner Breath\* and Realignment Process™ where, with willingness, trust enters, “thought” is stilled and perception is quelled. As, in Carbon Based Memory, physiological resistance is weakened, the voice of the past is drained of its energy, and, freed of restriction and impedance, everything “locked in bone” by the generations is opened, gently faced and embraced as the structure moves into its natural super-conductor state. This allows the full expression of Conscious, Active, Present Love to enter my nervous system and do the work of transmuting anything unlike itself. This transmutation restores the power that has, through blame, been energetically locked within and rendered unavailable because it has been hidden within generations of unresolved, dissociated pain, trauma and projection.

*Until the Unconscious becomes Conscious it will direct our lives and we will call it fate!* Carl Jung

During deep ENERGY FIELD work, combined with the StillPoint Breath\* I create an opening for letting go of mental, emotional and nervous system resistance — defined as “satan” in Aramaic — and break the addiction to the Power Person Dynamics stored, from the past, in Carbon Based Memory! \*Breath, known in the ancient Aramaic language as Rukha d’Koodsha, is literally defined as a feminine, elemental force, that undoes the effects of our errors and teaches us the TRUTH.

I allow myself to gain awareness of and Forgive all disintegrative energy by releasing any form of resistance and struggle. I breathe, soften and let go! I transform my perception and open to the deepest of StillPoints. Each time I visit this state, through my connection to my Authentic Self, pain-based energies are dissolved and the Voice of Inner Wisdom, carried on the Breath\* is strengthened as I live in deeper and deeper ways from the state of Being. As I consciously originate my part in Creation, I experience the Actuality of Creation directly. Through willingness and the unreserved release of all strain — physical, mental and emotional — I reach a reset, from within, of my physiology and nervous system. Freed of the grip of my mind, I open the space for deep structural and energetic realignment and reorganization brought on by, **even if, just for one instant**, I am out of my mind —
