

A FUNCTIONAL DIAGRAM OF THE HUMAN MIND

BEING

Meant to consciously source life

Gateway to the mind that was in Christ

Intentions
Store of Intentions (my own & genetic)
Must pass through a filter

3 FILTERS: Fear Hostility Rakhma
The Resultant Intention is: **NEGATIVE, DESTRUCTIVE, CONSTRUCTIVE**

PERFECT LOVE
Consisting of **Rakhma & Khooba** acting together casts out (makes) fear

Reality: a max of 9 bits of data & designed to be the LIGHT to guide my life. If darkness - hostility or fear - is my guide, my light, I am living in an hallucination and life will be difficult!

PERCEPTION - MY REALITY is either: Threatening, Irritating, Loving
Fear Hostility Khooba

Must pass through a filter
Store of Perceptual Data (my own and genetic)
Perception

Intentions are the raw material of goals. The quality of my intentions determines the quality of my goals and, ultimately the quality of my perceptions, words, and behaviors. By harmonizing with the First Law I inoculate my mind against fear and hostility and its destructive effects!

GOALS ARE DRIVERS FOR

Goals are the drivers of perception. Only I can determine which filters are set and therefore maintain the quality of my intentions, goals and perceptions, and keep my lights on!

How do we tell what filters are set? By our fruit! Our health. Our realities - loving, threatening, irritating. Our feelings - loving, fearful, irritated. Our words - constructive, negative, destructive. Rakhma is the filter over Intentions that limits available intentions to those keyed to Love! It is the word Y'Shua used to express the First Law! The word has been *improperly* translated as Love. It means much more!
